

GIRLS OWN STEM.

Did you know there is a shortage of women pursuing careers in STEM fields?

We want to work on bridging that gap from an early age! GO STEM is a program geared for girls in the 4th to 6th grade, who want to have fun learning about different concepts in Science, Technology, Engineering, and Mathematics!

Message from Program Directors:

We are high school students who are dedicated to the mission of inspiring young girls to consider STEM paths in their future careers! We believe in making this opportunity accessible to all girls who are interested in STEM, and that's why it's completely FREE! We hope to spark the curiosity of young girls and nurture their love for STEM! This program will be a great opportunity for young girls who feel ready to work on their teamwork skills, tackle challenging questions, solve problems, and do fun experiments!

Every Saturday
December 15th–February 9th
2PM–4PM
Main Library
Registration Required

11 South Broad St.
Elizabeth, NJ 07202
(908) 354-6060
